

Structural Door Support Frame

Build a Scalable Work Area Anywhere Within Your Building - No Permits Required!

Goff's Structural Door Support Frames provide the ultimate solution to building flexible space in your facility, without the need for expensive construction or building permits.

Easy to assemble, shipping only 3 components and a hardware box.

Provides stability by bolting directly to the floor for complete support.

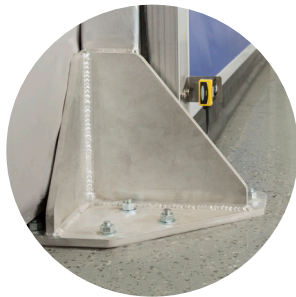

Conveniently designed to fit all standard Goff's doors up to 14' x 14'

By adding a Structural Door Support Frame with our High Performance Doors within your Goff's Curtain Wall, you can divide your space for today with integrated flexibility for what comes tomorrow.

Divide your space without the need for expensive construction, access it without the need for a permanent opening.

Built to fit your needs:

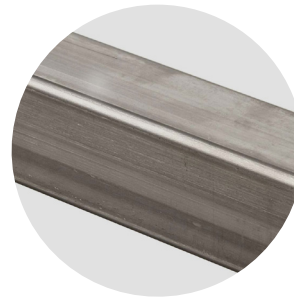

Aluminum

Aluminum frames will never rust, and are lighter for reduced shipping costs. Great for both indoor & outdoor installations, as well as wash down applications.

Powder Coated Steel

Easily weld additional attachments to a powder coated steel frame. Powder Coated Steel should be used for indoor installations only.

Stainless Steel

Stainless Steel frames will never rust, built for facilities that require food grade equipment and wash down applications, for indoor and outdoor installations.

Standard color for powder coating on the steel frames is Safety Yellow. 9 additional colors are available upon request.
