## Goff's G2 Manual Doors

The Goff's Manual Chain Hoist door is manually operated by a chain hoist mechanism, making it a great fit for interior openings at your facility. Corrosion-resistant materials & aluminum side guides provide long term durability.

- **Little to no maintenance for long term functionality.**
- **Heavy duty aluminum side guides.**
- **Replaceable mesh & vinyl panels reduce cross contamination & separate environments.**

8' x 8' door pictured with blue & vision panels

### STANDARD FEATURES:

Full-Width Roll Cover

Auto-Reset After Impact

Full-Width Window

Replaceable Door Panels

Fiberglass Wind Bars

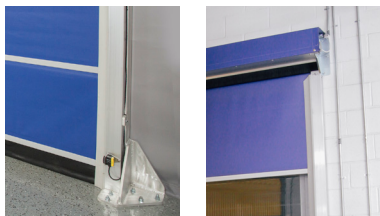

### Goff's Shaft Mounted Chain Hoist Mechanism:

**Integrated brake automatically secures the door** open at any height without the need for straps or pins.

**Operates with 9:1 gearbox ratio** ensuring ease of use regardless of door size.

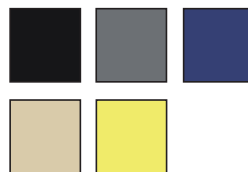

Chain hoist is mounted directly to the roll tube shaft for **quick installation**. No chains or sprockets to lubricate or adjust.

### Options & Accessories

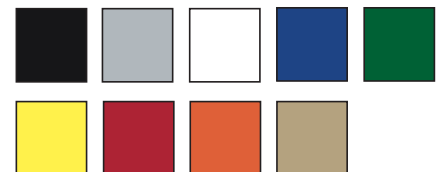

Available in **Face Mount, Projection Mount, or freestanding** via Goff's Door Support Frame.
