

Chain Hoist Doors: Easier to use, lower cost of ownership.

Why add additional maintenance & cost to your facility with a manual spring door when you can have our easy to use chain hoist system for the same price? Never worry about spring tension, reliability, or adjustments ever again!

Chain Hoist Advantages:

- **Quick installation without the need for complicated spring adjustment**, minimizing facility downtime.
- **Chain hoist doors are incredibly reliable**, requiring little to no maintenance to function properly.
- **Integrated brake automatically secures the door** open at any height without the need for straps or pins.
- Safely operate your door without standing in the dock opening, **reducing the risk of falls off the dock.**
- **Built to streamline your daily loading dock activity.**

Integrated Braking System:

With an integrated brake and 4:1 gearbox ratio, our Chain Hoist Assist system allows you to stop the door at any height, or safely keep it in the upright position, all without worrying about straps or pins, making operation a breeze!

With over 30 years of experience, the Goff's team is committed to delivering the most reliable and innovative solutions to improve efficiency in your facility. **Contact us to help you improve safety and reliability at your facility today.**
