

**LOW TRAFFIC**

**AVAILABLE UP TO 16' x 16'**

# Goff's G2 Basic Doors

Our G2 Basic door is great for your low traffic larger exterior openings, where the benefits of a bug screen door are desired for comfort and keeping bugs and debris out.

- **Travels at 18"/sec**, up to 12 cycles/hour
- **Protect your facility** from bugs, birds, and intruders
- **Improve comfort & reduce energy costs**
- Ideal for your **low traffic areas with large openings**

8' x 10' door pictured with blue bug mesh.

Our **In-Tube motor** operates at 18"/sec and is completely contained within the door roll tube, making it a great low-profile door solution.

## Goff's Standard Features:

- ✓ **Full-Width Roll Cover**
- ✓ **Auto-Reset After Impact**
- ✓ **Replaceable Door Panels**
- ✓ **Fiberglass Wind Bars**

CONTROL OPTIONS
