

Aluminum Repair Bay

Completely enclosed repair station.

Goff's Aluminum Repair Bay is a complete vehicle enclosure with curtain wall sides and a clear PVC tent-style top, creating maximum containment separation.

Flexible design made to drive through.

Made with our vinyl curtain walls, Goff's repair bay has a full drive-through configuration, making vehicle entrance and exit easy as ever by simply moving the curtain walls to the side. No need to maneuver around walls with our flexible design.

Easy installation.

Eliminate the need for costly wall building and roof framework by simply attaching Goff's repair bay to your existing building truss or shop ceiling via its single point drop down connection.

With Goff's, excellence comes standard.

Goff's Aluminum Repair Bay comes standard in a 12' wide by 24' deep, 4-sided enclosure, with the height options of 8', 9', 10' or 12' to perfectly fit your space.

1. **Full length hook & loop velcro** sewn on each side of curtain for maximum containment when fully closed.
2. **Vinyl floor sweep** attached to the bottom of the curtain with velcro to seal the gap between your curtain wall and the floor.
3. **Chain weight** sewn into lower pocket keeps curtain wall taut.
4. **Clear PVC middle panel and tent-style top** allows for natural light into your enclosure, while maintaining maximum separation.

Aluminum Repair Ready:

Manufacturers of aluminum vehicles are required to follow specific separation guidelines. Aluminum vehicles undergoing repairs must be separated from vehicles undergoing steel repairs to prevent cross contamination, which can compromise the repair. Goff's Aluminum Repair Bay checks that box and allows you to meet requirements in your facility.

Two Mounting Options:

- Floor supported option for the ability to place your Aluminum Repair Bay anywhere in your building.
- Suspend your Aluminum Repair Bay from the ceiling by suspending from existing beams in your facility.

Options to fit your needs:

Wind Ties

Secure your curtain walls in cases where wind or negative pressure is present. Available in standard and heavy duty styles.

Filter Panel:

Easily removable & replaceable filter panels available in 2' x 4' or 4' x 4' sizes, reinforced with a nylon scrim pattern.

Cleaner & Shield All®:

Easily & safely clean your entire curtain wall with our Cleaner, and provide a layer of protection with our Shield All coating.

14 oz Vinyl Color Options:

Choose Your Color:

Personalize your curtain wall by choosing between our 14 oz color options to best fit your companies branding.

Goff's delivers more than you expected.

With over 30 years of experience, the Goff's team is committed to delivering the most reliable and innovative solutions to improve efficiency in your facility.
