

Goff's Strip Doors

Simple solution for separating environments.

Goff's Strip Doors are a simple solution to separate different areas of your facility and help block dust, temperature, noise and insects to create a more comfortable work environment.

Easier access between separated rooms.

Strip Doors allow for unrestricted pedestrian and machinery pass through between different areas of your facility, without having to move anything out of the way, acting as a convenient space separation method for your facility.

Minimally intrusive design.

Our transparent PVC strips allow for visibility through to the other side of the doorway to help eliminate any accidents and to separate the space without impeding on functionality or lighting.

Material + Applications

Standard:

Standard PVC strips for easy access to other areas.

USDA Grade:

Strips that help your facility meet USDA requirements.

Low Temperature:

Can be installed in applications as cold as -40 degrees.

Ribbed:

Ideal for your frequently used heavy equipment areas.

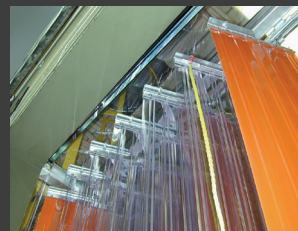

Weldview:

Block harmful UV light from your welding areas.

Anti-Static:

Strips with anti-static elements to eliminate static electricity.

Orange Safety:

Orange strips available for your additional safety requirements.

Bug Repellent:

Bug repellent strips available to reduce insect entry to facility.

Mounting:

Our Strip Door mounting options include under header mount, face of wall mount, projection mount and sliding accordion style.

Bulk Rolls:

Bulk rolls available in strips of 4"-48" wide, .060"-.160" thick, and up to 300' in length. Available in various materials to best fit your unique application.

Suggested Strip Door Based on Traffic Type

Traffic Type	Strip Width	Strip Thickness	Overlap
Light traffic: Interior doors up to 10' H and exterior doors up to 8' H. Ideal for pedestrians.	8" Strips	.080" Thick	50% Overlap
Medium traffic: Interior and exterior doors up to 15' H. Ideal for lightweight machinery.	12" Strips	.120" Thick	67% Overlap
Heavy traffic: Traffic doors 14' or higher. Ideal for vehicles and heavy machinery.	16" Strips	.160" Thick	50% Overlap
