

Industrial Curtain Walls

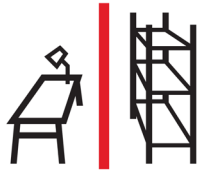

Increase efficiency & productivity in your facilities.

A better fit than permanent walls.

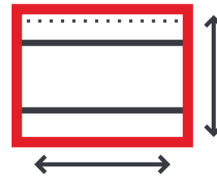

Curtain walls go where traditional walls can't, giving you the power to place walls where needed, when needed. Separating work areas can be impactful to improving your employee's environment, increasing plant efficiency and increasing plant safety. With an array of vinyl curtains to meet your specific needs, our custom industrial curtains will make space separation easy.

Made in the USA and quickly shipped to your facility for expedited installation.

Clearly define work areas to increase plant efficiency & productivity.

Available in a wide range of sizes for any custom configuration in your facility.

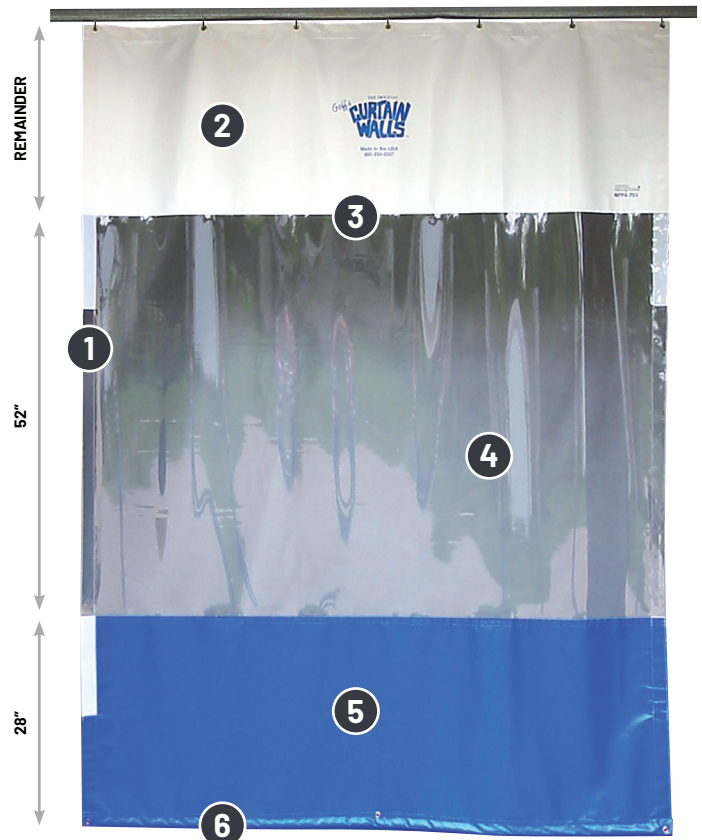

Create flexible space without permanent or costly construction and additional taxes.

What you need, where you need it.

Goff's Industrial Curtain Walls are manufactured in the USA. Our curtain wall system can be made up to 100' high in any width, and come standard with these premium features:

- 1. 2" industrial strength velcro sewn in edges** to join adjacent curtain walls to one another.
- 2. Upper curtain panel provides a barrier** between your spaces for the remainder of the height.
- 3. All seams are double lock stitched**, maximizing the durability of your industrial curtain wall.
- 4. Clear window section maximizes lighting and visibility** for safety on both sides of the curtain.
- 5. Lower curtain panel provides a barrier** from window down to your floor to separate areas.
- 6. Chain weight sewn in lower pocket** keeps your curtain wall taut and straight.

SPACE SEPARATION CURTAINS

Original Curtain Walls

The industry-changing solution to separating industrial spaces for increase productivity. Industrial curtain walls eliminate the spread of dust, contaminants, over spray, and more. Partitioning your open areas for each specific task at hand increases organization & efficiency.

Track & Rollers**

Heavy Duty Welding Screens

Create free-standing and mobile welding areas anywhere in your shop, built with our heavy-duty 1-3/16" extruded aluminum frames for the toughest shop environments.

Welding Strip Doors

Transparent weld view strips allow for easier access between separated areas, while maintaining safety from welding jobs in your facility.

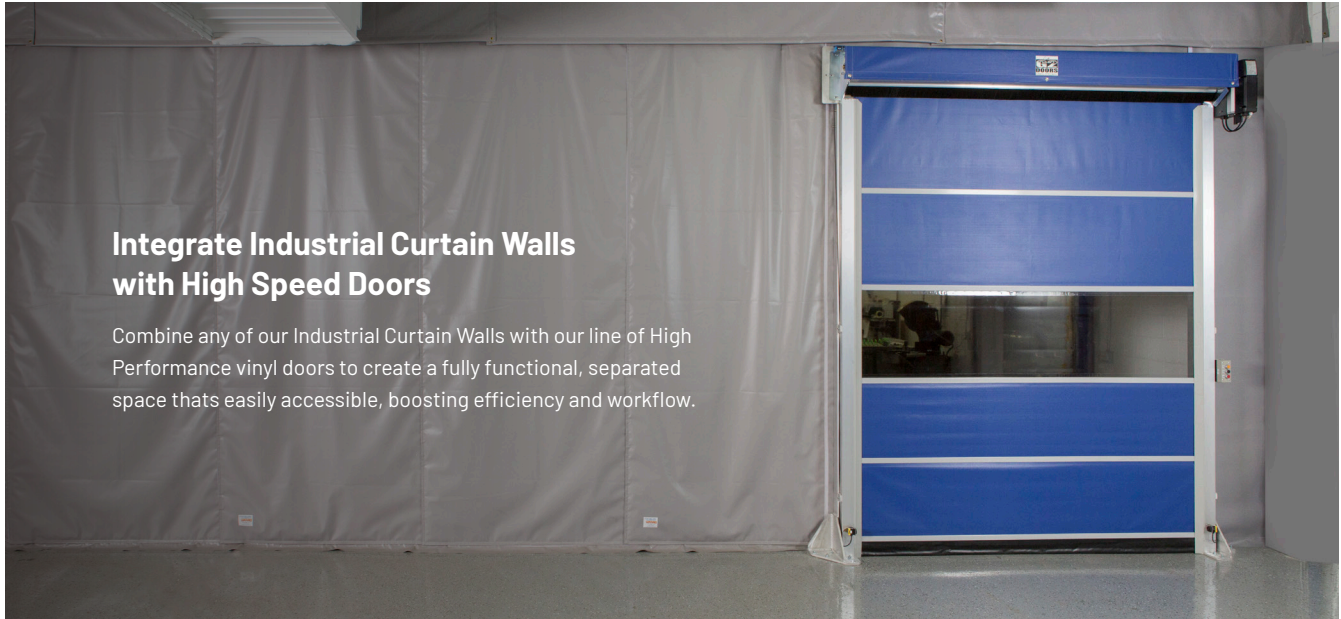

Medium Duty Welding Screens

Same great mobile separation as our popular heavy duty welding screens, built with our economic 1" aluminum square tubing for moderate shop environments.

Welding Blankets

Lightweight and flexible welding blankets are designed to drape over material, equipment and more to protect against sparks, molten, hot debris and torch cutting spatter.

Integrate Industrial Curtain Walls with High Speed Doors

Combine any of our Industrial Curtain Walls with our line of High Performance vinyl doors to create a fully functional, separated space that's easily accessible, boosting efficiency and workflow.

Optional features to fit your needs.

If you need more than just separation, Goff's offers optional add-ons that allow you to separate space exactly how your facility needs it. Upgrade your curtain wall to include any of these additional features to create the perfect system for your application:

Filter Panel:

Easily removable & replaceable filter panels available in 2' x 4' or 4' x 4' sizes, reinforced with a nylon scrim pattern.

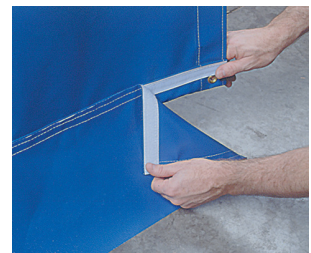

Strip Door:

Add an easy pass-through strip door within your curtain wall while maintaining separation, available in various sizes.

Upper Valance Panel:

Create a seal between your hanging track and ceiling to maximize spatial separation. Great for sloped ceilings!

Floor Sweep:

6" replaceable vinyl piece to seal the gap between your curtain wall and your floor. Perfect for uneven floors!

Wind Ties

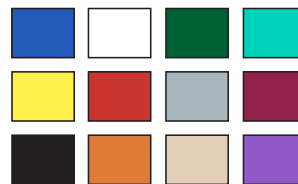

Secure your curtain walls in cases where wind or negative pressure is present. Available in standard and heavy duty styles.

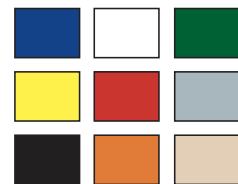

Custom Branding

Personalize your curtain wall with company logos, slogans, or building area labels.

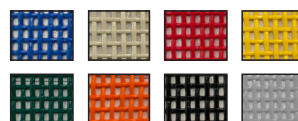

14 oz Vinyl Colors:

18 oz Vinyl Colors:

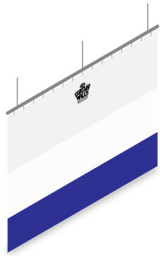

11x17 Mesh Colors:

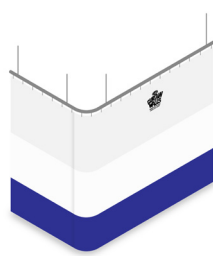

14 mil Weld View Colors:

Single Curtain:

Use a single Industrial Curtain Wall for instant lateral separation between tasks.

Two-Sided Curtain:

Create an L-shaped partition to segment off a corner of your building as separate space.

Three-Sided Curtain:

Add a 3 sided curtain wall to one of your permanent building walls to create a private room.

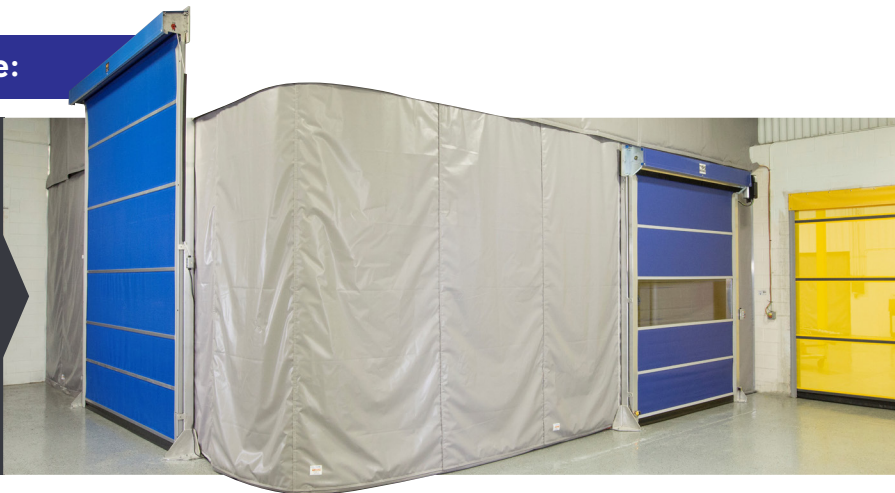

Four-Sided Curtain:

Build an entirely standalone room using a 4-sided curtain wall for modular space design.

Easily Access your Separated Space:

Conveniently access your new space by combining Goff's Industrial Curtain Walls with our easy-to-use high performance vinyl door line. Whether you're in and out of your space all day, or only need occasional access, we've got the solution you need to make the most of your facility for years to come, boosting efficiency of your workflows.

Goff's delivers more than you expected.

With over 30 years of experience, the Goff's team is committed to delivering the most reliable and innovative solutions to improve efficiency in your facility.
