

Goff's Machine Guard Door

Goff's Machine Guard door is the ultimate safety addition to your automated manufacturing areas. Our Machine Guard Door provides a physical barrier between personnel and processes, blocking UV light & debris from workspaces during welding or machining operations.

- **Travels at 42"/sec**, up to 120 cycles/hour
- **NEMA4X Intelligent Control System with Smart Touch Screen Interface**
- **(2) PLe RF Sensors and Interlock Control**
- **(1) Through-Beam Photo Eye Safety Sensor**
- **UV-Blocking Window & 32oz Reinforced FR Vinyl**
- **Optional Floor-Mounted Door Support Frame**

10' x 10' door pictured with black vinyl & red weld view panel, supported on floor-mounted aluminum door frame.

Goff's Intelligent Control System:

Communicates with your machinery to open and close door when it is safe to do so.

Touch screen control simplifies your door operation and monitors safety systems.

Ships assembled and **pre-wired in a NEMA4X enclosure** to simplify start-up.

Input Voltage Compatibility: 120V1P, 208V1P, 230V3P, 480V3P

Safety Comes Standard:

Black and yellow safety bottom clearly marks Machine Guard safety zone.

The dual RF sensor interlock system prevents machine operation until door is fully closed.

Yellow powder coated side guides clearly marks Machine Guard safety zone.

Weld view material blocks UV light, sparks, and debris, keeping workspaces cleaner.
