

DOCK DOOR

AVAILABLE UP TO 10' x 12'

Goff's Dock Guard Door

Goff's Dock Guard Door reduces maintenance costs and down time due to door impacts and damage at busy loading docks.

- **Maximum wind bars for better wind resistance**
- **Fall protection standard per OSHA guidelines**
- **26 oz reinforced vinyl door sections**
- **Heavy duty aluminum side guides**
- **Powered or manual versions available**

8' x 10' door pictured with blue vinyl & vision window.

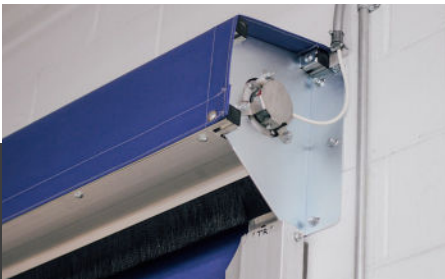

STANDARD FEATURES:

Full-Width Roll Cover

Full-Width Window

Replaceable Door Panels

Fiberglass Wind Bars

110 Volt In-Tube motor operates at 18"/sec for up to 24 cycles/hour and is completely contained within the top box for protection.

Manual chain hoist option with 4:1 gearbox and integrated brake that automatically stops the door at any point in the opening.

Concentration of **reinforced wind bars** near the bottom of the door creates a safe zone that exceeds OSHA's requirements for fall protection.

2 pad lock capable devices on both lower corners of door. Pad locks by others.

Available in **Face Mount, Projection Mount, or Freestanding** via Door Support Frame.

Powered doors include smart motor controller and NEMA1(3) button control.
